

Flo-Master XP2e™

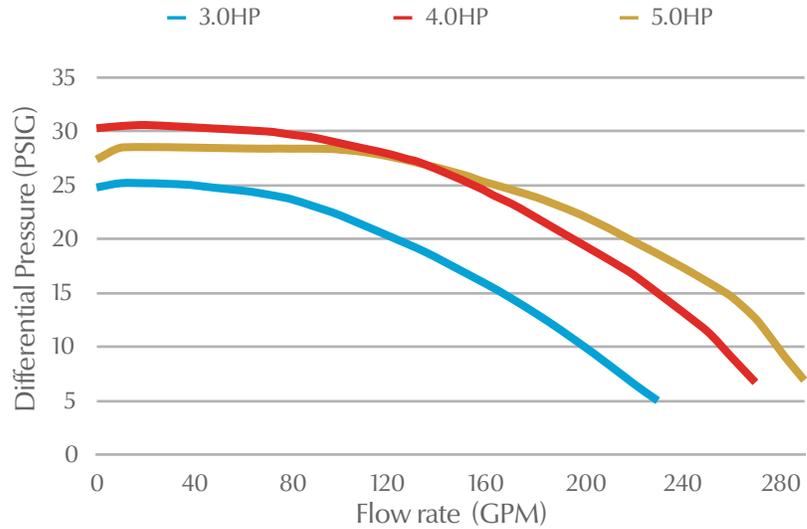

The Flo-Master XP2e pump, Gecko's energy conscious offering within its high performance spa pump line, is designed for heavily jetted spas requiring increased flow. The XP2e is calibrated specially for each spa model, so spa manufacturers can now offer improved overall performance and enhanced energy efficiency to their customers.

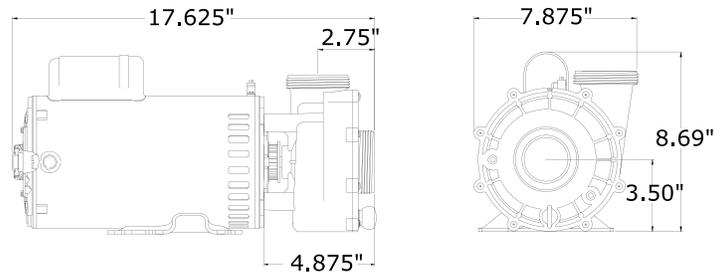

The XP2e pump fits within the same envelope as the original XP2 pump, yet provides greater flow than its predecessor, allowing spas to use more jets per pump.

Powerful, efficient, built for your spa
